

## Plan to set up 4 dams in Iraq

*19 August 2010*

The Water Resources Ministry said on Wednesday that its 2010 plan includes the establishment of four dams and preparing special studies on more than nine other dams.

"The dams will be built in the northern and eastern regions, as well as in the western desert," the ministry said in a statement received by Aswat al-Iraq news agency.

"The plan also includes the continuation of the reclamation works of the irrigation projects in Kirkuk, Diala, Basra and Ramadi," the statement added.
